

POST-SHOW REPORT 2023

Asia's Largest Integrated Expo on Cleaning Technologies, Hygiene Solutions, Waste Management, Linen Care & Vehicle Care

SOURCE FOR 'CLEAN LIVING'

13 14 15 September 2023 | Bombay Exhibition Centre, Mumbai

SHOW PROFILE

The Clean India Technology Week 2023 — the 19th Clean India Show, Waste Technology India Expo, Laundrex India Expo, and Auto Care Expo — proved to be a tremendous success for the 192 exhibitors and buyers from 61 segments seeking the latest in cleaning, hygiene, smart technology, pest management, waste management, laundry, dry cleaning, and auto care solutions.

CTW2023 once again surpassed previous records with 9688 visitors queuing up to witness the latest innovations, new launches and AI-based solutions which are fast changing the Indian cleaning landscape. The unique and striking feature was the showcasing of Make in India products and contract manufacturers with products of international standards.

The true success of the event was evident in 99% of the exhibitors already committing to return for the next Show, with bigger stalls and even more solutions for a growing India.

Date : 13 – 15 September
Venue : Bombay Exhibition Centre, Mumbai

EXHIBITOR QUOTES

Diversey's participation in the Clean India Show, met with an energetic atmosphere, significant footfall, and relevant inquiries. The event provided a comprehensive platform for various stakeholders in the cleaning and hygiene sector, from end customers to distributors and importers.

We showcased several new products launched in the past two years, including the Ultima range of machines and super concentrates in chemicals. Emphasising sustainability, Diversey aims to reduce plastic consumption and carbon emissions.

Brijesh Rathore

Vice President, APAC - Global Strategic Accounts & Commercial Excellence, Diversey

We are happy to be a part of Laundrex India Expo. It has been very well organized and met with a good number of potential target audience at our stall. Thanks to the entire team who have made this show, one of the best ones.

We are presenting a unique technology from the UK called XOrbs and IFB is an exclusive partner for this technology in India and Asia-Pacific.

B Krishnamoorthy

Business Head - IFB Commercial Appliances

Our experience has been good at this very crowded three-day Show. The response and feedback we got was also very good to our European products of high quality. This shows that price disparity is no more a deciding factor. The expo platform was very good, well organized and we are happy with what we have seen.

Adnan Šarić

Export Area Manager, Filmop International

We have been business partners with the organizers since year one. Since 2005 we have been exhibiting and every year has been a better one and we all have evolved, the industry vertical has evolved. I see better times ahead.

We have launched six new products, including a robotic scrubber drier, a mini compact scrubber drier, guest room laundry trolleys, laundry trolleys and fleet management systems on our machines. Yes, we are looking forward to be there at the next show

Vivek Mata

MD, Charnock Equipments Pvt. Ltd

KNOWLEDGE SHARING SESSIONS

The convergence of stalwarts and stakeholders in the waste management space, including Municipal Corporations, CSOs, EHS professionals, waste management solution providers, etc. deliberated on circular economy and the way forward.

Relooking food safety and hygiene today, FSSAI authorities, FDA practitioners, QC heads of FMCG, and QSRs discussed challenges in implementing and meeting standards for food safety, food handling, and last-mile delivery.

The Integrated Facility Management conference successfully created a roadmap smart IFM with a prime focus on 4M technology to sustainability and creating a touchless world in the FM space.

Experts, Industry players, and suppliers in the retail, commercial, industrial laundry & dry-cleaning space gave away valuable insights, strategies, successful business models, IoT, and AI solutions to a packed audience that would change and help them thrive their business in the dynamic market landscape.

VISITOR QUOTES

I have been attending this amazing event for the last two years. I am looking forward to being at this event every year, as there is always something new to learn on this platform. I see many new technologies showcased which can be implemented in our organisations. The shows are improving year on year.

Irfan Poonawala

GM –Maintenance & Technology, Operations Head, Siemens

This is a very good exhibition. It is very encouraging and good experience being here. We have seen products which can be useful in the works department of the Indian Railways, especially in cleaning railway coaches and laundry besides housekeeping products for on board and exterior cleaning of coaches.

K S Jain

Principal Chief Mechanical Engineer, South Central Railway

It was a brilliant and one-of-its-kind show with so many facilities experts from the fraternity under one roof. A few things that I liked or loved rather very much were robotics, which is the future of the industry. There were a lot of take aways... it is an amazing initiative by the Clean India Show organisers.

Atul Singh Chauhan

Director - Facilities, SVP Ahmedabad International Airport
